DEQ hotline numbers now operational

BATON ROUGE – The Louisiana Department of Environmental Quality now has its normal hotline back in order. If someone should have an environmental concern, they should call the DEQ hotline at 225-219-3640 or 1-888-763-5424 for assistance.

These numbers are for environmental hazards or reporting and not for debris removal inquiries. If you have a debris removal question, please call your local parish officials.

The temporary number of 225-219-9919 is no longer the reporting or hotline number.
